Examples:

Theorem and theorem-like environments (2.4.2, pag. 4)

Examples of the theorem environments.

Theorem 1. *This is something.*

Theorem 2 (My theorem)**.** *This is something too.*

Algorithm 1. *This is something.*

Axiom 1. *This is something.*

Claim 1. *This is something.*

Conclusion 1. *This is something.*

Condition 1. *This is something.*

Conjecture 1. *This is something.*

Corollary 1. *This is something.*

Criterion 1. *This is something.*

Definition 1. *This is something.*

Example 1. *This is something.*

Explanation. *This is something.*

Fact 1. *This is something.*

Formula 1. *This is something.*

Idea 1. *This is something.*

Lemma 1. *This is something.*

Model 1. *This is something.*

Notation 1. *This is something.*

Observation 1. *This is something.*

Paradox 1. *This is something.*

Learning outcomes: Theorem environments.
Author(s): Bart Snapp and Rodney Austin

Procedure 1. *This is something.*

Proposition 1. *This is something.*

Remark 1. *This is something.*

Summary 1. *This is something.*

Template 1. *This is something.*

Warning 1. *This is something.*
